MONEY, BONDS AND STOCKS,

A Weak Opening at New York, Followed by Moderate Business and a Small Advance. NEW YORK, Nov. 16 .- Money on call was may \$2.231 per cent., the last loan being made st 21, closing offered at 21.

Prime mercantile paper, 41 0 61 per cent. Sterling exchange was dull but firm at \$4.843

for sixty-day bills and \$4.871 for demand. The total sales of stocks to-day were 191,-100 shares, including the following: Delaware, Lackawanna & Western, 24,850; Erie,5,705; Lake Shore, 27,475; Missouri Pacific, 11,013; Northwestern, 5,710; Pacific Mail, 3,910; Reading, 36,045; Richmond & West Point, 7,225; St. Paul, 10,085; Union Pacific, 8,050; Western Union,

The stock market was weak at the opening, under the influence of heavy selling of Union Pacific and Lake Shore by London houses, and cables from London reporting declines in the rest of the list had a depressing effect. Trunkline stocks are especially weak. The selling orders were soon exhausted, however, and after the first hour the market showed considerable strength, and the early losses were rapidly recovered. The volume of business was comparatively small, however, and a moderate buying movement and dispatches reporting a favorable change in the Northwestern situation started an advance in St. Paul and Northwestern. The securities of the Southwestern roads also received decided improvement, which extended to the trunk lines and coal stocks. New England and Richmond Terminal preferred advanced I per cent, on reports of favorable developments, but lost half this advance to the last hour. After noon there was little movement to prices and but light trading, and toward the close of business prices sagged off slightly, and the market closed quiet but steady. Nearly all the stocks in the active list showed advances at the close, Missouri Pacific being up 13; Atchison, 14; Pacific Mail, 13, and Lackawanna, 1. Railroad bonds were moderately active, the total sales being \$1,189,000. The feature was

unchanged, and there are no new features to note. The opening was about the same as yesterday's closing, ruled easy and then became firm, but there were fair offerings most lof the session, under which prices declined lic, barely changed, and closed about to lower than yesterday. There was some covering by large "shorts," and possibly some buying on "long" account, but the continued weakness until late in the session brought out some of this "long" wheat again, which has assisted the weakness. The report that the French Deputies had decided to discuss the proposition for taking off the duty on imported wheat may have had some effect on the market early in the day, while a rumor later that the proposition had been withdrawn helped to create the existing weakness. Quietude was the chief characteristic in corn, trading being on a very limited scale and confined almost entirely to local operators. The influences on the market were almost a duplicate of those of yesterday, the transactions of a prominent local operator, who was selling moderately of December and January, being about the only feature of note. Initial trades were at yesterday's closing prices, after which the market became dull, and at times bore a deserted appearance, fluctuations being limited to to range, and at the close prices were 10 to lower than yesterday. In oats a moderate business was transacted within a narrow range of values. The near futures were neglected, the interest centering chiefly in the May deliveries. Fair orders were received to buy the latter at slight recessions from the prices asked; holders, how-ever, were not disposed to press A quiet feeling prevailed gales. prices declined \$02c, but rallied and closed steady. Trading was only fair in mess pork, and prices were without material change. Trading was chiefly in January and May contracts. Opening sales were made at yesterday's closing figures, but prices rallied 5@7 to later in the day, and the market closed steady. Only a moderate trade was reported in lard, and the feeling was stronger. Prices ruled about .02 c higher, and the market closed steady. Little interest was manifested in short ribs, and trading was limited. Prices exhibited very little change. The leading futures ranged

Legitimate Trade in Good Condition and the Money Market in Good Shape.

NEW YORK, Nov. 16.-R. G. Dun & Co.'s weekly review of trade says: The volume of legitimate trade continues large, but in important branches the transactions, in anticipation of an improvement in prices, were so large, prior to the election, that comparative dulines has followed. The war of rates between the trunk lines is the chief cause of disturbance in speculative circles, but there is also some foreign realizing and men are beginning to consider whether disputes between this country and Great Britain may not disturb the current of investments. The stock market has therefore been heavy. The average of prices has declined during past week about \$1.12 per share. Wheat speculation has been sat upon heavily by the stoppage of exports from the Atlantic ports and the enormous movement from the Pacific coast. Another depressing feature has been the export of 4,700,000 bu corn in five weeks, against 2,800,000 bu last year, pointing to less foreign demand for wheat. With assurances of larger supplies, corn is to cheaper, with speculation parrow and sales of only 4,200,000 bu for the week. Oats are I cent dearer; cotton has risen an eighth, with sales of 620,000 bales, and coffee has risen a quarter with sales of 200,000 bags, while oil, after a little advance, closes as last week. The market for cottons is rather quiet, and print cloths, with light goods of low grade, are very firm. Woolens move singgishly. but without some advance in price which the cheapness of toreign goods resists, enlargement of production is scarcely to be expected. The boot and shoe trade continues decidealy active and promising. Excess of production has weakened the authracite coal market. Interior demand for bituminous coal has fallen off, and the coke output in western Pennsylvania exceeds all past records.

While the demand for iron and steel was larger, the production appears at present to have increased even more rapidly, and the market seems rather weaker. Sales of No. 1 Southern here, at \$17.50, are reported. Bar is also weaker in tone, quoted at \$1.85, and it is stated that steel rails have been sold at \$26 in one case, at Pittsburg, and the Chicago quotation, \$29.50, is hardly equivalent to that figure, though some Eastern sales at \$28 are also

Money is not easy at Nashville, firm at Kansas City, and in active demand at Memphis, but at nearly all points in ample supply, and the treasury observes that the demand for currency has fallen off. Scarcely any complaint is made of collections. The bank clearings outside of New York continue large; but foreign trade does not improve. Treasury disbursements for the week have exceeded receipts by only

The failures during the week number 237, as compared with a total of 226 last week and 275 the week previous. For the corresponding week of last year, the figures were 225.

INDIANAPOLIS MARKETS.

Bad Roads and Bad Weather the Cause of the Sluggish Trade.

INDIANAPOLIS, Nov. 16.

In all departments trade dragged a little today. There were but few buyers in, and mail orders were limited. In prices few changes were noted. Both coffees and sugars are weak, although not quotably lower. There is only a fair distribution in progress, and all staple articles carry an easy tone. The hardware market is fairly active for the season, with firm prices as a rule. The iron market is characterized with firmness, and business is good. Dealers in tinners' supplies report trade more quiet, but up to the usual volume of November, with prices ruling steady. Druggists report trade rather quiet, with no changes in values of importances. The produce markets are moderately active. Fresh-laid eggs command a premium at firmer prices, and there is a large local demand, the receipts not being heavy enough to justify shipments, while prices here are about the same as in the East. The demand for poultry is good, and fat stock will in light supply. Game is more plenty and is selling slow. Apples are quiet, without further change in values. Both potatoes and onions are irregular in quality, in large supply and selling slow. A few potatoes of fine quality will bring a shade higher prices than quotations. Cabbage is steady and abundant. Lemons are easier and must be choice to bring top prices. Oranges are still rather inferior in quality and difficult to quote correctly.

GRAIN. There was only a fair attendance on 'Change to-day, and the bidding showed that buyers are disposed to keep near the shore. Below is given the receipts and the fluctuations in values for
